DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Claims 1 and 25 are allowed.

The prior art discloses a large area synchronized-code division multiple access (LAS-CDMA) system using LS codes for spread spectrum modulation.

The prior art however fails to disclose means for assigning a first of a plurality of subsets to a first portion of a wireless CDMA system and means for assigning a second of the plurality of subsets to a second portion of the wireless system and means for identifying mobile stations within the first portion of the wireless system with LS codes from the first of the plurality of subsets; and means for identifying mobile stations within the second portion of the system with LS codes from the second of the plurality of subsets.

Claim 7 is allowed.

The prior art discloses a large area synchronized-code division multiple access (LAS-CDMA) system using LS codes for spread spectrum modulation.

The prior art however fails to disclose a cross-correlation between any two LS codes within a first subset that is null within an interference free window, and the cross-correlation between any two LS codes within a second subset is null within the interference free window and wherein the first and second subsets of LS codes are part of a set of LS codes and are defined by the interference free window, and wherein the set of LS codes comprises 128 LS codes, and the interference free window is equal to $[-1, +1]$ and corresponds to 64 available LS codes for each of the first and second subsets.

Claims 13 and 26 are allowed.

The prior art discloses a large area synchronized-code division multiple access (LAS-CDMA) system using LS codes for spread spectrum modulation.

The prior art however fails to disclose means for processing a transmission comprising first and second portions, wherein the transmission further comprises a third portion comprising a first LS code, and wherein the second portion has an associated

first data symbol and the third portion has an associated second data symbol, the second portion comprising the first LS code modulated by the first data symbol, and the third portion comprising the first LS code modulated by the second data symbol.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
